ADDITIONAL COMMENTS Please include any additional information about your product(s):

SUBMITTING ITEMS

The USAPA requires (2) samples for each individual paddle being tested. The cost (including 3rd party deflection tests) is \$200.00 per model type. Along with the paddles, send check for \$200.00 (payable to USAPA).

Please Note: all paddles submitted for testing are retained by USAPA for our documentation.

Once this form is complete, please email to:

ruleschair@usapa.org

You will then be notified of the address to ship your paddles and check.

- Normal turnaround time for testing is about three to four weeks after paddles are received.
- Results of the test will be forwarded to the company contact(s) via email.
- The USAPA will not publish results of tests on prototypes unless the manufacturer requests it.
- Test results of paddles that are commercially available are reported on the USAPA website.
- The USAPA also conducts testing of pickleballs. Please email **ruleschair@usapa.org** for details.
