Some important things to know about your UTPR (USAPA Tournament Player Rating):

- Your introductory UTPR will be released in the times zones stated above. Members will be able to:
 - See his/her own 4-digit UTPR
 - See other USAPA members 2-digit UTPR rounded skill rating
- The Player Review Phase is ongoing. If you have not had a chance to review your player results in your member profile, please do so by logging in to your USAPA member profile. Report issues to: MatchReview@PickleballTournaments.com. With your help, over the course of the next few months we will continue to refine tournament data to be as accurate as possible.

Keep in mind:

- UTPRs are based on tournament results that have been entered into PickleballTournaments.com over the past three years.
- UTPRs are more accurate than subjective self-ratings or tournament director ratings.
- The UTPR is not meant to be a “ranking” of players. Rankings will be available later this year.
- The UTPR may be used in USAPA sanctioned tournaments for seeding events. This will result in more accurate seeding. PickleballTournament.com will have auto seeding available later this year.
 - Sanctioned tournament directors will have access to member player’s 4-digit ratings through PickleballTournaments.com.
 - Non-sanctioned tournament directors will not be able to view the 4-digit or 2-digit skill ratings but will be able to purchase the auto seeding feature in the near future.
- A player’s UTPR may have age bias if players only participate in specific age categories
- A player’s UTPR may have a regional bias if players only play local events
- The more tournament matches you play going forward, the more the ratings will “self-correct” and become more accurate.
- We will continue to refine the UTPR system for increased accuracy.
- If you have not done so, please review the [FAQ](#) for all the details. Changes may be made to the FAQ over time as appropriate or because of adjustments to the ratings algorithm or tournament procedures.
